As an accomplished filmmaker and marketing strategist with over two decades of global experience, I specialize in crafting culturally resonant narratives that drive visibility, engagement, and growth. My leadership on brand campaigns for Coca-Cola, Red Bull, and government agencies has been matched by measurable impact: I helped Re-Pie Portfolio transition into a public company through investor-focused content and TCV messaging, and positioned Dias Holding as Turkey's market leader in patented nano-authentication technologies used in banknote printing, bullion tracking, and high-value commodity verification. I bring a director's eye for storytelling, a strategist's mind for cultural timing, and a team leader's ability to activate influencers, partnerships, and social campaigns that command attention and build brand love. I'm eager to contribute to a brand that isn't afraid to take risks, shape trends, and lead with voice.

I have over **160 episodes of TV drama** and/or comedy series.

6 Feature films released theatrically.

11 International awards won for Feature films (Best Director, Best Film, Best Script) Over

130 Episodes of episodic, non-dramatic TV shows produced and/or directed

6 Feature length documentary films.

Over **25 TVC commercials** directed and/or produced.

3 Music Videos.

Bachelor of Science degree in Philosophy

Master of Arts degree in Filmmaking and Production
